

WHAT ARE OUTHOUSE RACES?

Homemade Outhouses – made of wood, cardboard, plastic, or whatever you can imagine. There are three people to a team. Outhouses are secured on a set of skis, which can be provided to you by the Sapphire Valley Ski Area, and are pushed by two team members, while one team member 'sits' inside.

Outhouses are equipped with a seat with at least one (1) hole, and a roll of toilet paper, or alternative wiping source.

The racecourse is a two-lane track on packed snow (or on ice), with two teams racing each other head-to-head over a length of approximately 120 feet (40 yards), the first 30 feet being propelled by the pushers and the last 90 feet under its own gravitational power.

This event is as exciting as 'Drag Racing' if you use your imagination.

Outhouses can be very simple, or they can be as elaborate as anyone wants them to be.

RACES:

Race teams consist of three people. 2 team members 'PUSH' the outhouse 30 feet, while one 'sits' inside the entire 120 feet. The front (doorway) of the outhouse will be used for starting line alignment and to determine the winner at the finish line – NOT the front of the skis.

One registered alternate is allowed for each team but can ONLY be used in case of injury, emergency, or any other unpredicted circumstance. The alternate cannot be used to relieve a tired member.

The track will be two lanes on packed snow (or on ice if the snowpack is insufficient). Start to finish is approximately 120 feet (40 yards). Crossing the centerline will result in disqualification of that team for that race.

Double elimination will be used to determine the winner.

The 'sitter' must be sitting on the seat and maintain proper toilet composure when the outhouse crosses the finish line and is NOT allowed to participate in the propelling process in any way.

Doors must be propped open or removed during the race, so the 'sitter' is visible.

Outhouse must be lined up and ready for viewing by 1:30 pm.
